

What is SQL?

→ Relational DB

PostgreSQL, MySQL, Oracle, SQL Server

The SQL Standards:-

ANSI, ISO

SQL → RDBMS
(Select name from ind.)

Three components of SQL:

DDL $\rightarrow$ Data Definition L.

DML $\rightarrow$ Data manipulation L.

DCL $\rightarrow$ Data Control L.

(normalized)

DDL

Create Database —

Charset

Create table —

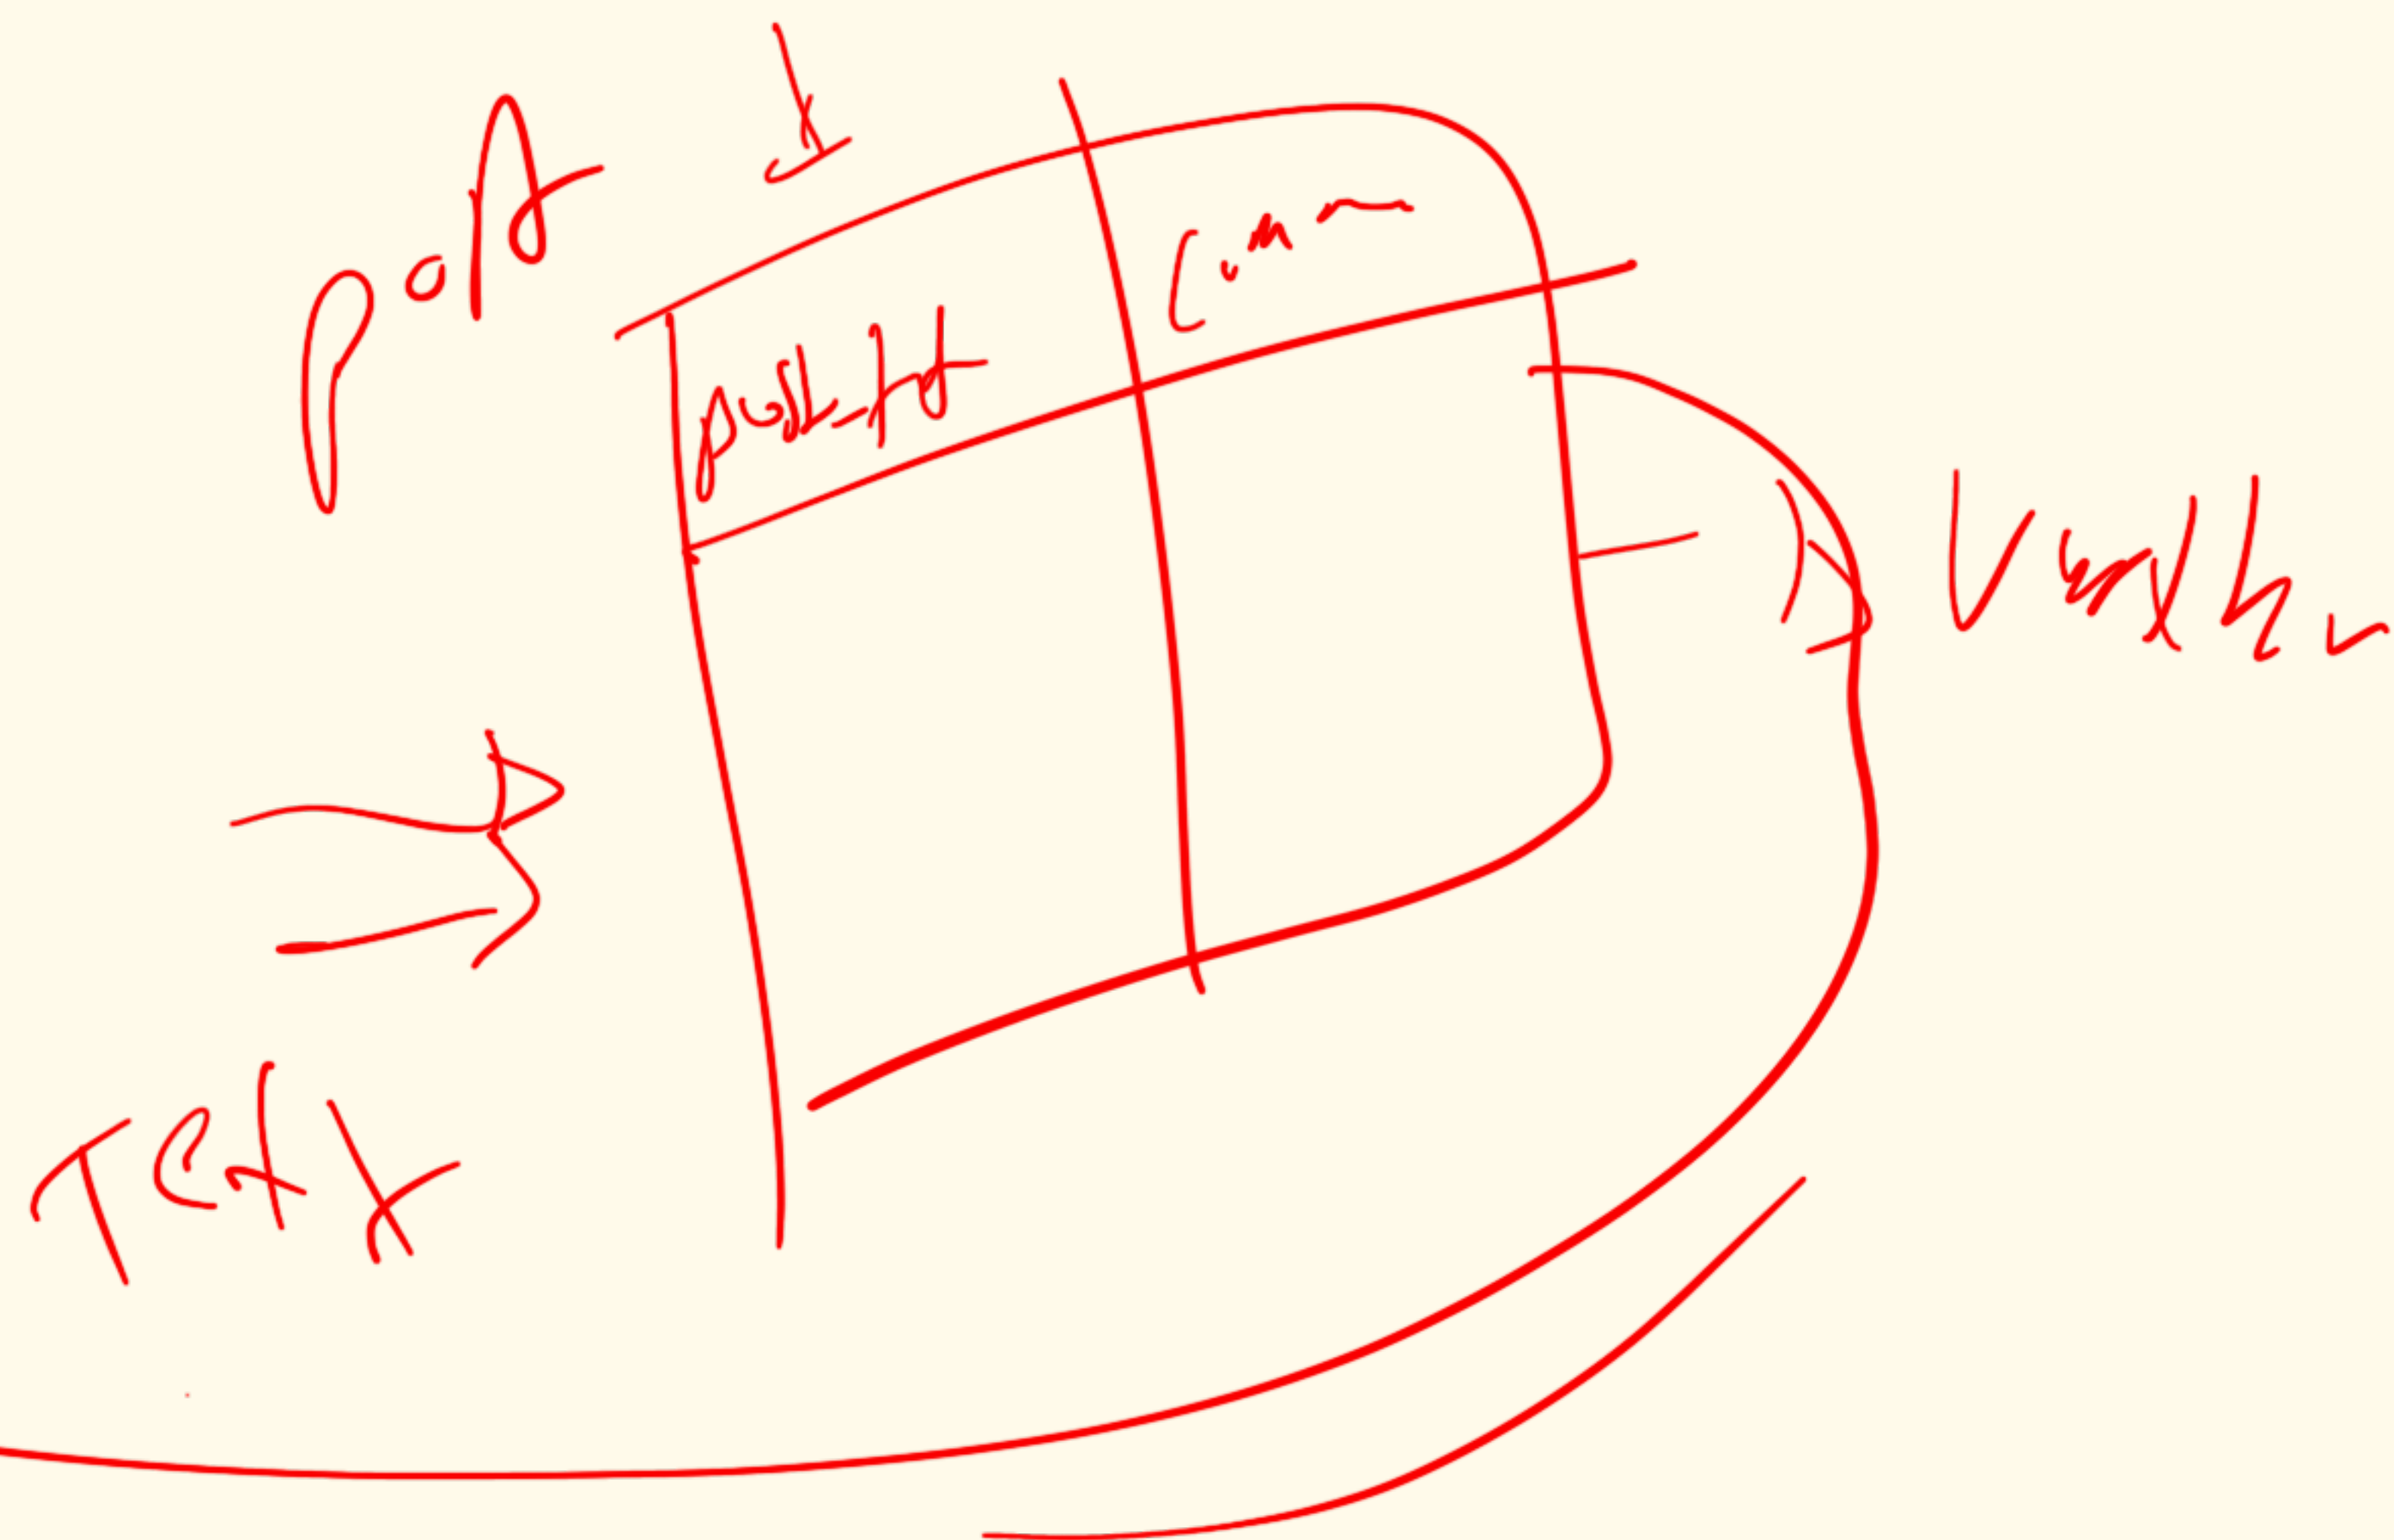

String - Text

(
users (name, age, date)
???

char(n) →

var char(n) →

Text →

② Numeric types

int 4 bit

Decimal (p, s)

float, double

Dec. (3, 4)

222.1111

⑦ Date / time

Date (YYYY-MM-DD)

Time HH:MM:SS

Timestamp, Make time →
Timezone
No time zone

2026-7-5 12:11:20

App

④ GFW type

Boolean : 1/0

Bools $\rightarrow$ ✓

CD

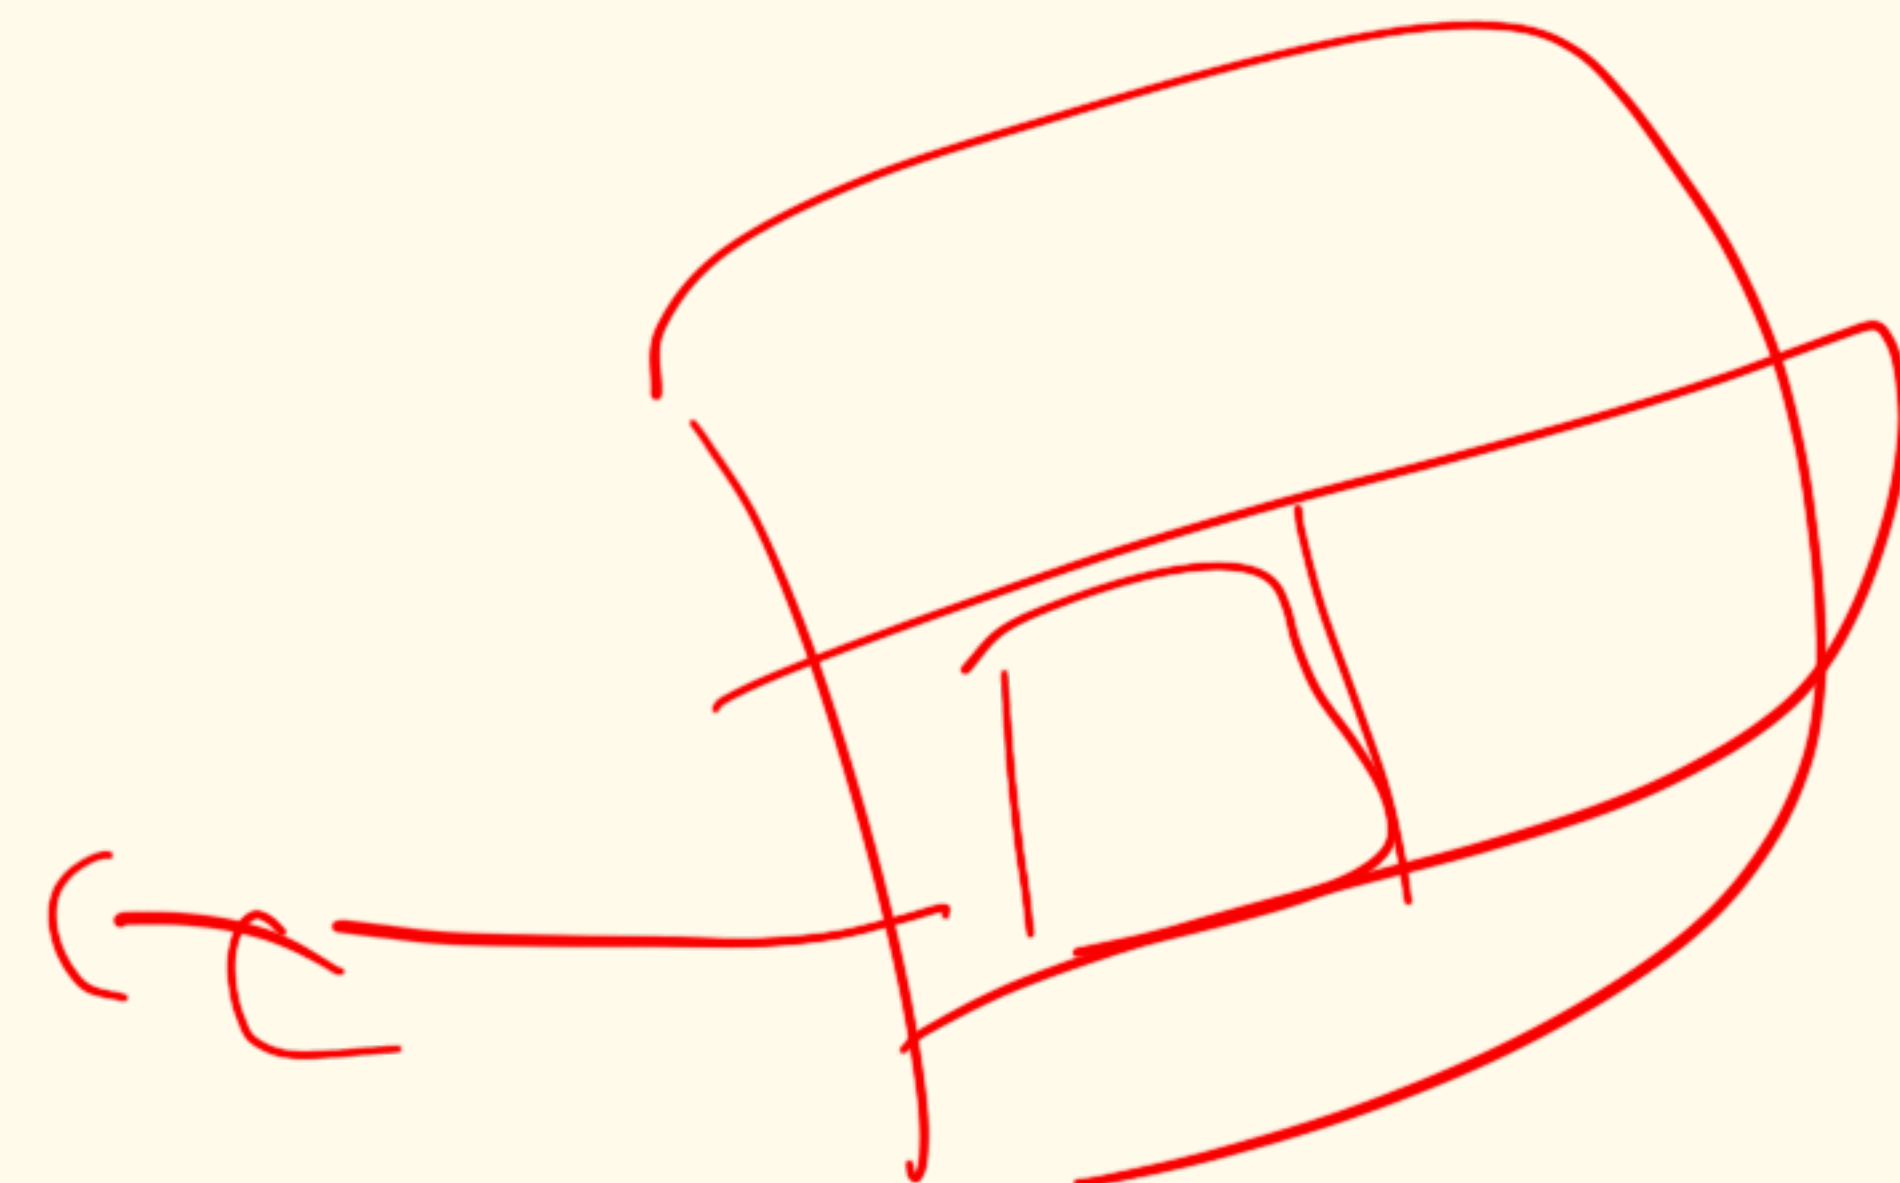

call work

T

Disk

Json :

{field, value}

Create table users (————)

(table
↓
